Sunday Morning 8

October is the busiest month of the year for us. Both kid's birthdays are in October along with several other family members and friends. Then there is school, choir performances and athletic events just to name a few. It is also when I start praying and thinking about the direction of the church and themes for the coming year. During this time, I start slowly sharing the direction with the church. This coming year one of the focuses will be on the meaning and importance of baptism and church membership. As I was discussing the theme for next year last week, I had both of the boys that live with us express their interest in learning about baptism in particular and they both said they wanted to be baptized! So, we will begin the study early! They both expressed that wanted to wait to get baptized when Dalton comes home on school break. We are trying to work out all the details so it possibly could happen toward the end of this year or early in January. Because of the weather, we will probably be doing it at the local rec center's indoor heated pool.

I am always very reluctant to talk about myself or my health concerns, but I am in need of prayers. Over the past few months, I have been battling severe headaches, balance and dizziness issues. I have been averaging 2-3 "spells" per week. When I have the spells, all I can do is take medication and lay in bed. I have had this issue (Menier's disease) for several years and it has recently become worse and frequent. I have been to numerous doctors over the last few weeks. General practitioners, ENT, neurologist, and even counseling at the VA. I even had to go the VA in Cheyenne, WY last week to have 2 different MRI scans run. Some of the Drs have even suggested that since I had a bad case of covid last year, I could possibly be dealing with "Long Covid." But there is still not enough data available to say for sure.

I have been scheduled for a consultation with the balance clinic in Denver for next month. From there, I may have to go to the Western regional VA in Salt Lake City for treatment if necessary. In the past, I was seen by a functional medicine Chiropractic Neurologist who helped me. The problem is there are less than 200 in the US and the closest one is in California. Also most do not accept insurance. I am trying to go through the VA and hoping they can eventually get me the help I need but I may have to end up going to CA and paying myself.

Because of this issue I am forced to be unconventional in regards to preaching and teaching. I will now start preparing (on days I feel good) my sermons and lessons for the week and recording them so in case I am having one of the spells, everyone can still hear the lessons and sermon for the week.
